Hon.
Assistant Commissioner for Patents
Box PCT
Washington, DC 20231

Petition Pursuant to 37 C.F.R. 1.137(a)

Sir:

Applicants hereby wish to express their appreciation for the courtesies extended to their undersigned attorney by Mr. Steven Loke, Detailee of the PCT Legal Office during the telephone interview in connection with his Decision on their Petition under 37 C.F.R. 1.181 of 17 September 1996.

By their instant petition Applicants pray that their application be revived and that its prosecution be continued as the delay in prosecuting the application was

unavoidable, as will hereinafter appear.

In support of their petition, Applicants are submitting herewith the fee of \$55.00 pursuant to 37 C.F.R. 1.17(1).

Application No.: 08/676,355

Applicants are also submitting copies of the four (4) pages of their executed Declaration and as well as of the two (2) pages of their assignee's Fraunhofer-Gesellschaft für die angewandte Forschung e.V., Certificate of Small Entity Status, the originals of which were submitted under cover of their Attorney's letter of 30 July 1996, prior to receipt of the Notification of Missing Requirements (Form PCT/DO/EO/905) of 4 September 1996 from the United States Patent Office acting as Designated /Elected Office. The enclosed copies have been augmented by insertion of the U.S. Application Number as well as the date on which the application to commence the U.S. National Phase was filed with the Patent & Trademark Office.

Also enclosed is a corrected translation of Applicant's claims filed under Article 34 PCT. In particular, the German phrase "Listen (A)" in line 6 of claim 10 and the German phrase "Listen (B)" in line 5 of claim 13 have been added.

Applicants urge that with their instant submission the reasons for abandonment of their application set forth in the Detailee's Decision of 23 September 1997 have been overcome. Accordingly, revival of Applicants' application is deemed to be proper and is hereby courteously solicited as no further grounds appear to

exist which would prevent their application from being prosecuted in due course.

Respectfully submitted,

Karl Hormann
